

MasterRange™ | Patterned Obscure Glass

AUCKLAND: 09 525 3379 | WELLINGTON: 04 913 1999 | CHRISTCHURCH: 03 366 3733

THE MASTERRANGE IS AN ON TREND GLASS THAT PROVIDES AESTHETICALLY PLEASING, SUBTLE OBSCURING.

The MasterRange allows for privacy while still providing excellent light transmission.

MasterRange is an elegant glass product with multiple types of obscuring patterns.

MasterRange is a broad selection of patterned glass with unique structures that cause interesting and pleasing light scattering effects.

The MasterRange can be Laminated and tempered to fit the solution that is required.

APPLICATIONS

- | | |
|-------------------|------------------------------|
| Bathrooms | Facades |
| Office Partitions | Anywhere privacy is required |
| Furniture | |

PERFORMANCE/ SPECIFYING

MasterRange can be ordered toughened and as a laminate so that it can conform to high impact areas. All glass must be engineered to specific code and design, please contact Woods Glass to find out more information.

CLEANING/ MAINTENANCE

Normally when cleaning glass, a vinegar-based glass cleaner or mild dish soap and water with a soft, lint-free cloth or paper products is recommended. A squeegee or soft cloth may be carefully used to dry the glass and help avoid water spots.

It is not recommended to use petroleum-based cleaners or solvents as they can streak the glass and weaken the seal between the glass and frame. Avoid washing in direct sunlight to reduce streaking on the glass.

Never use razor blades, steel wool, putty knives or abrasive pads as they may damage the glass, particularly on toughened glass.

RANGE

MasterRange is manufactured in a large variety of sizes in order to minimise loss due to cutting, and different thicknesses are available. Please contact Woods Glass to discuss special requirements.
